

Monadnock Envi® POPArt™ Folding Canvas

An **ENVI**PORTFOLIO Product

Envi POPArt is a beautiful, matte canvas-embossed substrate designed for on-demand printing of fine art, photography, commercial decor and point-of-purchase signage. This product offers an economical alternative to traditional stretch framed gallery wraps.

POPArt Folding Canvas, when properly scored, die-cut and folded, looks just like a quality canvas gallery wrap, without the fuss of a wood frame construction.

POPArt is UV flatbed inkjet printable. It scores, die-cuts cleanly, and folds easily to create beautiful, sturdy, dimensional artwork.

POPArt may be printed, scored, die-cut and shipped flat, saving time and money at the photo lab or digital print house.

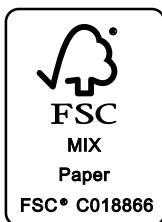

The consumer can assemble and hang their new artwork on the wall in less than a minute.

Production Requirements:

UV Flatbed Printer

Scoring & Die-cutting Equipment
