

A woman with dark hair, wearing a green dress that appears to be made of a textured, moss-like material, stands on a large, rounded green mound. She is leaning back, with her right arm raised and hand open, reaching towards the sky. The mound she stands on is covered in a dense, green, moss-like texture with some small, light green leaves. The background is a plain, light gray.

Monadnock

Astrolite PC 100® Velvet c2s

Your Search for a Luxurious and Sustainable Fine Printing Paper Is (Finally!) Over.

Much like Velvet itself, our new line of fine printing papers unleashes a new world of design possibilities for those most-discerning and sustainability-forward companies looking for high-end luxury appeal.

The only premium coated 100% recycled sheet made in America, Astrolite PC 100 Velvet c2s is coated on both sides and completely crafted with only post-consumer waste recycled fiber.

Astrolite PC 100® Velvet c2s

Astrolite PC 100 Velvet c2s meets the needs of eco-conscious brand owners, designers, printers and packaging converters, who are searching for high quality graphic reproduction in premium retail and corporate marketing communications.

- Optimized for conventional and UV offset lithography, dry toner and HP Indigo presses
- Available in a range of basis weights from 80 lb. text to 150 lb. single-ply cover

Here at Monadnock, we continue to build on our legacy of designing sustainable and premium fine printing papers that offer exceptional possibilities. It's a truly "guilt-free" luxury that affords you and your next project the quality you deserve without compromising the environment.

With Astrolite PC 100 Velvet c2s, your long search for a luxurious and sustainable fine printing paper is now over. Experience this new beginning on your next print project by contacting us today.
