The New Face of Premium Packaging

Celebrate your brand's inner beauty with Hemp Envi™ Performance Board.

Monadnock Paper Mills has created a new sustainable portfolio of premium packaging board that offers unparalleled performance, printability, durability and eco-benefits.

Built for Brands unwilling to compromise, Hemp Envi c1s Performance Board is the seamless integration of beauty, performance and sustainability. Take a closer look at how we've transformed one of the oldest eco-friendly fibers into the New Face of Premium Packaging. Contact us today.

HEMP ENVI Performance Board

COATED

Hemp Envi C1S Performance Board is a silky, cool white coated packaging board developed for brands unwilling to compromise between performance and sustainability. Recyclable Hemp Envi Board is crafted in the U.S. with 30 percent renewable hemp fiber and 70 percent FSC Certified post-consumer waste recycled fiber.

Hemp is a long and strong agricultural fiber that has been used in papermaking for centuries.

The high-caliper board's environmental profile is matched with high-caliber performance prowess. Hemp Envi C1S Performance Board is engineered to deliver high print fidelity, exceptional folding characteristics with full ink coverage, and provides an excellent stage for embossing and foil-stamping.

Hemp Envi C1S Performance Board for sustainable packaging is available in 28x40 sheets in cartons and on skids.
