Envi PC 100 Performance Board

COATED

The New Face of Premium Packaging

Celebrate your brand's inner beauty with Envi Performance Board.

Monadnock Paper Mills has created a new sustainable portfolio of premium packaging board that offers unparalleled performance, printability, durability and eco-benefits.

Built for Brands unwilling to compromise, Envi Performance Board is the seamless integration of beauty, performance and sustainability. Contact us today to take a closer look at the New Face of Premium Packaging.

Envi PC 100 Performance Board

COATED

Monadnock Envi® PC 100 C1S Performance Board is a silky smooth, cool white coated packaging board developed for brands unwilling to compromise between performance and sustainability. Recyclable Envi Performance Board is crafted in the U.S. with FSC Certified, 100 percent post-consumer waste recycled fiber.

The high-caliber board's environmental profile is matched with high-caliber performance prowess. It is engineered to deliver high print fidelity, exceptional folding characteristics with full ink coverage, and provides an excellent stage for embossing and foil-stamping.

Envi PC 100 Coated Performance Board for sustainable packaging is available in 28x40 sheets in cartons and on skids.

Consult our Environmental Calculator to quantify the benefits of specifying post-consumer waste recycled fiber products from Monadnock and generate your savings certificate.
